SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT

Mail Stop Amendment
Commissioner for Patents
Alexandria, VA 22313-1450

Dear Sir:

In compliance with Applicants' duty of disclosure under 37 C.F.R. § 1.56 and in conformance with 37 C.F.R. §§ 1.97-1.98, Applicants hereby submit the following references for consideration by the Examiner. Copies of all of the references, except U.S. Patent No.

6,199,459, are enclosed along with a completed copy of Form PTO-1449. A copy of U.S. Patent No. 6,199,459 was previously supplied with Applicants' Information Disclosure Statement filed on April 9, 2004 and so there is no need to supply it with the present Supplemental Information Disclosure Statement.

I. DISCLOSURE

A. U.S. Patents

<u>Patent No.</u>	<u>Inventor</u>	<u>Issue Date</u>
6,199,459 B1	Azkona	03/13/01

B. Foreign Patents

<u>Reference No.</u>	<u>Country</u>	<u>Pub. Date</u>
2 334 913 A	U.K.	09/08/99
WO 99/44790 A1	WIPO	09/10/99
199 63 818 A1	Germany	07/05/01

II. DISCUSSION

A. U.S. Patent No. 6,199,459

The '459 patent was cited as an X-type reference in a combined Search and Examination Report for corresponding United Kingdom patent application GB0407459.7. An X-type reference is a document indicating lack of novelty or inventive step.

B. U.K. Patent Reference No. 2 334 913

The '913 patent reference was cited as an X-type reference in a combined Search and Examination Report for corresponding United Kingdom patent application GB0407459.7.

C. WIPO Patent Reference No. WO 99/44790

The '790 patent reference was cited as an X-type reference in a combined Search and Examination Report for corresponding United Kingdom patent application GB0407459.7.

D. German Patent Reference No. 199 63 818

Based solely on the drawings and the attached English-language Abstract, the '818 reference is pertinent because it appears to disclose pliers with a toothed rack arranged near a slot and engaged by a counter-tooth.

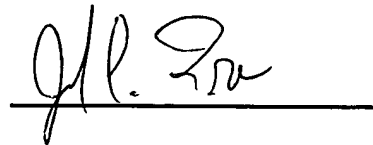

The '818 patent reference was cited as an X-type reference in a combined Search and Examination Report for corresponding United Kingdom patent application GB0407459.7.

III. CONCLUSION

It is believed that none of these references, alone or in combination, disclose or suggest the invention claimed. However, Applicants wish to make it clear that the disclosure of the above references is in no way an admission that they qualify as prior art. It is Applicants' desire, however, to have these references available in the record for both the Examiner and the public to

see. Applicants therefore request that the Examiner review the entire disclosure of each reference and make the above-listed references of record.

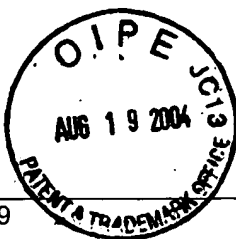

Respectfully submitted,

A handwritten signature in black ink, appearing to read "J.C. Freeman", is written over a solid horizontal line.
